## Genuine Microsoft Software

Home | About | Validate | Support

### Validation is as easy as 1-2-3!

**Validate Now**  
You can confirm that your software is genuine now. It's quick and easy.

[Validate Windows](#)

[Validate Office](#)

Genuine Microsoft software is published by Microsoft, properly licensed, and supported by Microsoft or an authorized partner – giving you full capabilities, access to all the latest updates, and confidence that you are getting the experience you expect. Validation is a quick and easy process that helps you to verify that your Microsoft software is genuine:

**Step 1:**  
Click on **Validate Windows** or **Validate Office**. If you have both, you'll need to validate each separately.

**Step 2:**  
Install the Firefox plug-in (you only have to do this once).

**Step 3:**  
View your validation results. If your software is genuine, you can start enjoying the additional benefits of genuine right away. If your software isn't genuine, not to worry – Microsoft has options designed to help you get genuine software.

Get started by clicking the **Validate Windows** or **Validate Office** buttons on the left.

**Benefits of using genuine Microsoft software:**

- **Up-to-date.** Using genuine Windows and Office means you have access to all the updates provided by Microsoft, giving you the confidence that your computer is up-to-date with everything you need and expect.
- **Access to support.** Only users of genuine Windows and Office will have access to Microsoft **SUPPORT CENTER** to troubleshoot problems when needed.
